## Overview

With its rolling, grassy hills and secluded, shady canyons, Briones is a secret wilderness surrounded by the towns of central Contra Costa County. Although the park is close to Lafayette, Walnut Creek, Pleasant Hill, Concord and Martinez, there are peaks within it from which you can see only park and watershed lands for miles in every direction.

From Briones Peak, the highest point in the park, there are panoramic views of Mount Diablo and the Diablo Valley to the east, the Sacramento River and Delta to the north, the East Bay hills and Mt. Tamalpais to the west and Las Trampas Regional Wilderness to the south.

Briones' 5,756 acres are home to many animals and birds, which forage on the grasslands or find shelter among the oaks and bays. You may see black-tailed deer, coyotes, squirrels, red-tailed hawks, turkey vultures and, if you are lucky, other more reclusive creatures. There are gorgeous wildflower displays in season. Park District naturalists often lead walks to view the park's natural and historic features.
